

# Academy of Engineering Technologies

Westover High School  
277 Bonanza Drive  
Fayetteville, NC 28303

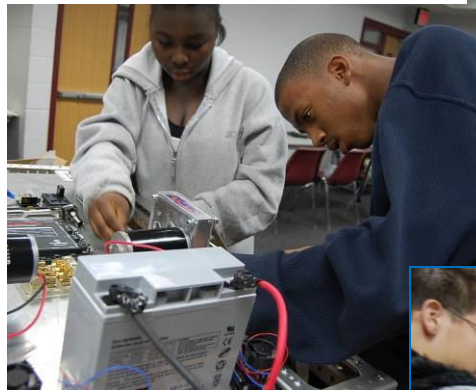

PROJECT LEAD THE WAY

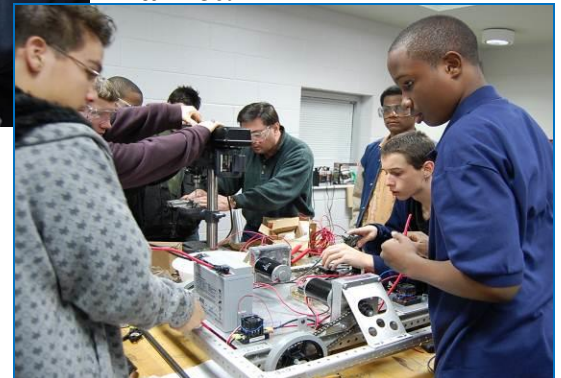

# PLTW

## Courses Include:

- Introduction to Engineering
- Principles of Engineering
- Digital Electronics
- Computer Integrated Manufacturing
- Civil Engineering and Architecture
- Engineering Design and Development

**Project Lead The Way** is a pre-engineering curriculum, taught in high schools across the nation. **PLTW** prepares students to excel in high-tech fields. Studies have proven that **PLTW** students become the kind of prepared, competent, employees our industry needs to remain competitive in the global market.

Students can earn 15 hours of college credit.
